3300 Mutual of Omaha Plaza
Omaha, NE 68175

Insured	1[John J. Doe]
Owner(s)	2[John J. Doe]
Initial Specified Amount	3[$100,000]
Issue Date	4[July 1, 2015]
Policy Number	5[1234567]

FLEXIBLE PREMIUM ADJUSTABLE LIFE INSURANCE POLICY WITH INDEX-LINKED INTEREST CREDITING OPTIONS

Read this policy carefully! This policy is a legal contract between you, the owner, and us, United of Omaha Life Insurance Company. The consideration for this policy is the application and the *premium* you paid.

We will, subject to the terms of this policy, pay the *death benefit* after we receive satisfactory proof at our *home office* that the insured died while this policy was in force. On the maturity date, we will pay you the *surrender value* if the insured is then living and this policy is in force.

RIGHT TO RETURN THIS POLICY

If you are not satisfied with this policy, you can return it to us or our representative within 20 days from the date you receive it. If this policy replaced another life insurance policy or annuity contract, you can return this policy within 30 days from the date you receive it. You can deliver or mail it to our *home office* or to any of our agency offices. If you return this policy within the specified time, we will promptly refund the *premium* you paid, including any fees or charges, and cancel this policy as of the issue date.

THIS IS A FLEXIBLE PREMIUM ADJUSTABLE LIFE INSURANCE POLICY WITH INDEX-LINKED INTEREST CREDITING OPTIONS BASED ON FINANCIAL MARKET INDICES. THE BENEFITS, VALUES, PERIODS OF COVERAGE, AND PREMIUMS NEEDED TO KEEP THIS POLICY IN FORCE MAY VARY OVER TIME.

IF YOU ALLOCATE PREMIUMS TO THE INDEX ACCOUNT, THE POLICY VALUES WILL BE AFFECTED BY THE CHANGE IN THE FINANCIAL MARKET INDICES. THIS POLICY DOES NOT DIRECTLY PARTICIPATE IN ANY EQUITY, BOND, MUTUAL FUND, COMMODITIES OR OTHER SECURITIES INVESTMENTS.

THIS IS NOT A PARTICIPATING POLICY. NO DIVIDENDS WILL BE PAID.

For customer service or questions about your coverage, please call 6[1-800-123-4567].

To contact your state insurance department, please call 7[1-XXX-XXX-XXXX].

POLICY SUMMARY

THIS IS ONLY A SUMMARY OF YOUR POLICY. IT IS SUBJECT TO ALL THE TERMS AND CONDITIONS OF THE ENTIRE POLICY.

This is a flexible premium adjustable life insurance policy with index-linked interest crediting options.

"Flexible premium" means that, within certain limits, you may vary the amount and timing of the *premiums* you pay for this policy. Variations in the amount and timing of *premium* payments may affect the amount of the *death benefit* and other values of this policy.

"Adjustable" means that, subject to certain limitations, the *death benefit* can increase or decrease over time.

Policy values change over time. The value may increase because of *premiums* paid and interest credited. The value may decrease because of policy charges, withdrawals and *loans*.

This policy offers interest crediting options that are based on change in the financial market indices as well as rates that we declare. You have the option to allocate some or all of the *net premiums* to the *index account*. *Allocations* are based on the *allocation percentages*. *Allocations* to the *index account* are based on each *index interest crediting strategy* you choose and placed in the *index account* on the *allocation date*, creating a *segment* for each *index interest crediting strategy*. Each *segment* will receive an *index credit* on the *segment maturity date*.

We will pay a *death benefit* if the insured dies while this policy is in force, subject to the terms and conditions of this policy. If this policy ends before the insured dies, it may or may not have a *surrender value*. The *surrender value* depends on various factors, including the amount and timing of premium payments, changes made to this policy, policy charges, interest credited, withdrawals, and loans as later described in this policy.

Under certain circumstances, you may withdraw some of the value of this policy. You may surrender this policy to us, but depending on the timing of the surrender, a *surrender charge* may apply. You may also take a *loan* from the value of this policy. If interest credited to this policy is zero or less than the interest charge on the *loan*, this policy may *lapse*. If this policy *lapses* while a *loan* is outstanding, you may have adverse tax consequences. You should consult with your personal tax advisor.

This policy may provide *no-lapse protection*. This means that as long as certain *no-lapse protection* tests are met, this policy will not *lapse*. If the *no-lapse protection tests* are not met, this policy may enter a 61-day *grace period*. At the end of the *grace period*, this policy will *lapse* if the appropriate *premiums* have not been paid.

Definition of Life Insurance Cash Value Accumulation Test

SCHEDULE OF BENEFITS

Form	Benefit	Monthly Policy Charges	Benefit Years
ICC16L152P	Life Insurance with Death Benefit Option [1][1 - Level]	See *data pages*	[2][85]

* This policy may terminate before the maturity date even if you make planned *premium* payments, subject to the **No-Lapse Protection** provision. This is because the charges subtracted from and the interest rates credited to this policy are not guaranteed. Additionally, this policy may terminate before the maturity date if you take a *loan*, make a *partial withdrawal*, change the *death benefit* option, or change the *specified amount*. If the policy does continue in force to the maturity date, it is possible there will be little or no *surrender value* at that time.

Assuming you make no changes to this policy, you take no withdrawals or loans from this policy, and the factors that impact the *surrender value* of this policy:

(a) are fixed at the guaranteed maximums or minimums shown on the policy *data pages*;
(b) are based on the initial *allocation(s)* selected for the *fixed account* and *index account*; and
(c) you pay the planned *premium* when due;

this policy will terminate in [3][2044]. This date reflects the planned *premium* as shown in the POLICY DATA section of the *data pages* and the *no-lapse protection* in effect.

POLICY CHARGES

Guaranteed Maximum Premium Charge Percentage:

[1][10.00%] of each *premium* payment

Guaranteed Maximum Monthly Expense Charge:

(a) [2][$0.1875] per $1,000 of *specified amount* per month; plus
(b) [3][$10.00] per month

Withdrawal fee: [4][$100]

*Any index referenced within your policy is considered a price index and does not reflect dividends paid on the underlying stocks. The elements used in determining the credited rate from the index are not guaranteed and can be changed by the company, subject to the guarantees in the policy, and any such changes can affect the return.

INDEX ACCOUNT CREDITING METHOD INTEREST RATE CALCULATION

Point-to-Point

Point-to-point is a crediting method that determines the *index* change based on the difference between the *index value* on a *segment start date* and the *index value* on a *segment maturity date*.

The *segment index rate* calculated using a point-to-point crediting method will equal:

(a) the *index value* as of the *segment maturity date*, minus the *index value* as of the *segment start date*;
(b) divided by the *index value* as of the *segment start date*;
(c) multiplied by the *participation rate*;

the result being no greater than the *segment cap* and no less than the *floor rate*.

The *participation rate*, *segment cap* and *floor rate* for each available *index interest crediting strategy* are declared by us on a monthly basis, are guaranteed for the *segment term*, and will never be less than the minimum guarantees shown in the INTEREST CREDITING section on the data pages.

S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY UNITED OF OMAHA LIFE INSURANCE COMPANY, OWNERS OF THE UNITED OF OMAHA LIFE INSURANCE COMPANY'S INDIVIDUAL INDEX LIFE INSURANCE PRODUCT, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBLITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND UNITED OF OMAHA LIFE INSURANCE COMPANY, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

BofA U.S. AGILITY INDEX

The BofA U.S. Agility Index (the "Index") is the property of BofA Securities Inc. and its affiliates ("BofAS") and licensed to Mutual of Omaha Insurance Company [and United of Omaha Life Insurance Company] (collectively, the "Licensee"). Neither the Licensee nor any fixed index annuity, indexed universal life insurance product or any other annuity product (collectively, the "Product"), or any strategy or feature of the Product is in any way sponsored, endorsed, sold or promoted by BofAS, and BofAS makes no representation as to the advisability of purchasing the Product. BofAS has not passed on the legality or suitability of, or the accuracy or adequacy of descriptions and disclosures relating to, the Product or any strategy or feature of the Product, nor make any representation or warranty, express or implied, to the owners of the Product or any member of the public regarding the Product or the advisability of purchasing in the Product, particularly the ability of the Index to track performance of any market or strategy. The selection of the Index as a crediting option under the Product does not obligate the Licensee or BofAS to make Product payments in the components of the Index or in other products linked to the Index.

BofAS's only relationship to Licensee is the licensing of certain trademarks and trade names and the Index or components thereof and BofAS is not party to any transaction contemplated hereby. The Index is determined, composed and calculated by BofAS without regard to the Licensee or the Product or its holders. Subject to applicable regulatory obligations, BofAS has no obligation to take the needs of the Licensee or the holders of the Product into consideration in determining, composing or calculating the Index, and BofAS shall not be liable, whether in negligence or otherwise, to any person for any errors or omissions in the Index or in the calculation of the Index or under any obligation to advise any person of any errors or omissions therein. BofAS is not responsible for and has not participated in the determination of the timing of, prices of, or quantities of the Product to be issued or in the determination or calculation of the equation by which the Product is to be priced, sold, purchased, or redeemed. BofAS has no obligation or liability in connection with the administration, marketing, or trading of the Product. While volatility controls may result in less fluctuation in rates of return as compared to products or indices without volatility controls, they may also reduce the overall rate of return as compared to products or indices not subject to volatility controls.

The rules governing the operation and calculation of the Index and any Index component sponsored or administered by BofAS (the "Rules") may be amended by BofAS. An amendment to the Rules may result from, without limitation, a change to the construction or calculation of the Index or such Index component, or from BofAS determining that a change to the Rules is required or desirable in order to update them or to address an error, omission or ambiguity. No assurance can be given that any such amendment would not be detrimental to purchasers of the Product. BofAS has no obligation to continue to publish, and may discontinue publication of, as applicable, the Index or any Index component. The end-of-day values of the Index are published subject to provisions in the Rules. BofAS is not obligated to publish any information regarding the Index other than as stipulated in such Rules.

THE INDEX AND ANY DATA, ARE PROVIDED "AS IS". BOFAS DOES NOT GUARANTEE OR MAKE ANY EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES ABOUT: THE ACCURACY, TIMELINESS, OR THE COMPLETENESS OF THE INDEX, ANY DATA, THE CALCULATION THEREOF, OR ANY COMMUNICATIONS WITH RESPECT THERETO; OR THE RESULTS TO BE OBTAINED BY A LICENSEE, HOLDERS OF A PRODUCT (LINKED TO OR BASED ON THE INDEX, ANY DATA, CALCULATION, OR COMMUNICATIONS). BOFAS ALSO EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR SATISFACTORY QUALITY.

BOFAS SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, UNAVAILABILITY, LATENESS, OR INTERRUPTIONS OR ANY OTHER CAUSE (INCLUDING NEGLIGENCE), UNDER ANY CAUSE OF ACTION, TO: A LICENSEE; HOLDERS OF ANY PRODUCT (LINKED OR BASED ON THE INDEX, THIS DOCUMENT, OR ANY DATA); OR ANY OTHER PERSON OR ENTITY-- ARISING FROM OR RELATED TO THE INDEX, ANY DATA, CALCULATION, OR COMMUNICATIONS, OR THE USE OF, OR RELIANCE ON THE INDEX, ANY DATA, CALCULATION, OR COMMUNICATIONS.

WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL BOFAS HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, INCIDENTAL, CONSEQUENTIAL DAMAGES, OR LOST PROFITS OR OPPORTUNITY, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

THE LIMITATIONS IN THE ABOVE THREE PARAGRAPHS ARE INDEPENDENT OF EACH OTHER, AND THE FAILURE OF ESSENTIAL PURPOSE, OR UNENFORCEABILITY OF ANY PART SHALL NOT AFFECT ANY OTHER PART.

"BofAS" and the "BofA U.S. Agility Index" are trademarks of BofA Securities Inc. or its Affiliates and have been licensed for use by Mutual of Omaha Insurance Company [and United of Omaha Life Insurance Company]. BofAS receives compensation from the Licensee in connection with licensing rights to the Index.

OBLIGATIONS TO MAKE PAYMENTS UNDER THE PRODUCT ARE SOLELY THE OBLIGATION OF THE LICENSEE AND ARE NOT THE RESPONSIBILITY OF BOFAS. BOFAS DID NOT PUBLISH OR APPROVE THIS DOCUMENT, AND BOFAS DOES NOT ACCEPT ANY RESPONSIBILITY FOR ITS CONTENTS OR USE

DEFINITIONS

This section provides an alphabetical list of certain terms and their meanings as used in this policy. The meanings apply to both the singular and plural versions of the defined terms. As you read through this policy, any word you see in italics is a defined term.

Accumulation value means, as of any date, the sum of the values in the *short term holding account*, the *fixed account* and the *index account*.

Actual no-lapse value means, as of any date, the amount calculated as described in the **No-Lapse Protection** provision of this policy.

Allocation means an amount taken from the *short term holding account* and applied to the *fixed account* and/or *index account*. This amount is based on *premiums* paid and *allocation percentages*.

Allocation date means the day *allocations* are made to the *fixed account* and/or *index account*. This date is shown in the ACCOUNT ALLOCATIONS section on the *data pages*.

Allocation percentage means the percentage you select to determine *allocations*. Initial allocation percentages are selected at the time of application. You may change the allocation percentages as described in the **Allocation Changes and Transfers** provision.

Attained age means the insured's age on the most recent policy anniversary.

Beneficiary means the person(s) or legal entity(ies) you designate to receive this policy's *death benefit*.

Business day means any day that we are open for business.

Change event means a change in any one or more of the following:

(a) *specified amount*;
(b) *death benefit* option;
(c) risk class;
(d) rate class; or
(e) any decrease in a rider benefit or termination of a rider prior to its expiration date.

Close of business is generally 4:00 p.m. Central Time on a *business day*.

Code means the Internal Revenue Code of 1986, as amended.

Contestability date means the date that starts the two-year contestability period. After this period, we may no longer contest the validity of this policy. This date is shown in the POLICY DATA section on the *data pages*. The two-year contestability period is subject to the terms of the **Incontestability** and **Suicide Exclusion** provisions.

Data pages means the pages of this policy that contain information specific to you, the insured, and the benefits provided under this policy. The data pages are identified as such at the bottom of each page.

Death benefit means the benefit we will pay to the *beneficiary* when the insured dies while this policy is in force.

Executive officer means the chief executive officer, the president, any vice president, the corporate secretary, or any assistant corporate secretary of United of Omaha Life Insurance Company.

Fixed account means the account within this policy that receives interest credited at rates declared by us. The interest rate for the fixed account will never be less than the *guaranteed minimum annual interest rate* shown in the INTEREST CREDITING section on the *data pages*.

Floor rate means the minimum rate used in determining the *index credit* interest for any *segment* in the *index account*. The floor rate for each *index interest crediting strategy* will never be less than the guaranteed minimum floor rate shown in the INTEREST CREDITING section on the *data pages*.

Formal request means a request, signed by you, dated, and submitted to our *home office*. The request must be on a form we supply or be in a form and content acceptable to us.

Grace period means the period within which *premiums* may be paid to avoid *lapse*.

Guaranteed minimum annual interest rate means the minimum annual interest rate we will credit to the *short term holding account* and the *fixed account*. This rate is shown in the INTEREST CREDITING section on the *data pages*.

Home office means, at the time of the delivery of this policy, our offices located at the address shown on the face page of this policy. If our home office moves, home office will mean the offices located at the new address.

Index means a financial market index that is used to compute the index interest rate for each *index interest crediting strategy*, as shown in the INDEX INTEREST CREDITING STRATEGIES section on the *data pages*.

Index account means the account within this policy that receives index credits. The index account is comprised of the sum of all *segments*.

Index credit means the amount of interest credited to a *segment,* as described in the **Credited Interest For Index Account** provision.

Index interest crediting strategy means an *index* based interest crediting option available under this policy for the *index account*. The currently available index interest crediting strategies are shown in the INTEREST CREDITING section on the *data pages*. You select the initial *allocation* to the index interest crediting strategies at the time of application. You may change your *allocation* as described in the **Allocation Changes and Transfers** provision.

Index value means the value of the *index* as of the close of any day for which the index value is published. For any day the index value is not published, we will use the latest index value published before that day.

Lapse means the termination of this policy because appropriate *premiums* were not paid before the end of the *grace period*.

Loan means, as of any date, the outstanding principal amount you borrow from this policy, plus the amount of any interest due but unpaid on that principal amount. Loans may be either index loans or standard loans.

Long-term no-lapse protection means the *no-lapse protection* during the *long-term no-lapse protection period.*

Long-term no-lapse protection monthly premium means the amount, if any, shown as the Long-Term No-Lapse Protection Monthly Premium on the *data pages.*

Long-term no-lapse protection period means, if applicable, the time period specified as the Long-term no-lapse protection period on the *data pages.*

Long-term no-lapse protection value, if applicable, means, as of any date, the values shown under the column No-Lapse Long-Term Protection Value in the *no-lapse table* on the *data pages.*

Minimum death benefit means an amount, provided by the *code*, below which the *death benefit* may not fall.

Monthly deduction means the total amount we subtract from the *accumulation value* each month to maintain this policy, as described in the Monthly Deductions provision of this policy.

Monthly deduction date means the date on which we make *monthly deductions*. The monthly deduction date is the issue date and each monthly anniversary of the issue date.

Monthly expense charge means an amount we subtract from the *accumulation value* each month for the administrative expenses of this policy. The guaranteed maximum monthly expense charge is shown in the POLICY CHARGES section on the *data pages*.

Net premium means the *premium* minus the *premium charge*.

No-lapse protection means the feature that, while in effect, keeps this policy in force even when the *surrender value* is not enough to pay the *monthly deduction*, as described in the NO LAPSE PROTECTION section of this policy.

No-lapse protection period means the time period specified as the no-lapse protection period shown in the NO-LAPSE PROTECTION section on the *data pages*.

No-lapse table means the table captioned Table of No-Lapse Protection Values shown in the NO-LAPSE PROTECTION section on the *data pages*.

Partial withdrawal means the amount you may withdraw from the *surrender value* in accordance with the PARTIAL WITHDRAWALS section of this policy.

Participation rate means a rate that is used in computing the *segment index rate* for any *segment*. The participation rate for each *index interest crediting strategy* is declared monthly by us and is guaranteed for the *segment term*. The participation rate will never be less than the guaranteed minimum participation rate shown in the INTEREST CREDITING section on the *data pages*.

Policy class means a class of insured persons who have the same policy form as this policy and who have certain factors in common that we determine. These factors may include, but are not limited to, the *specified amount*, *accumulation value*, issue date, policy duration, issue age, rate class, risk class, and any other factors which we may determine to take into account in the future.

Policy year means each 12-month period starting on the issue date and each anniversary of the issue date thereafter.

Premium means an amount paid to us in accordance with the terms of this policy. It includes both planned payments and additional payments. It does not include a *loan* repayment.

Premium charge means the amount we subtract from each *premium*. The premium charge equals the premium charge percentage shown in the POLICY CHARGES section on the *data pages* multiplied by the *premium*.

Pro-rata means a proportionate distribution, assigning an amount to a fraction, according to its share of the whole value.

Segment means a portion of the *index account* created on the *allocation date*, subject to the terms of the **Index Account** provision.

Segment cap means the maximum *segment index rate* for any *segment*. The segment cap for each *index interest crediting strategy* is declared monthly by us and is guaranteed for the *segment term*. The segment cap for each *index interest crediting strategy* will never be less than the guaranteed minimum segment cap shown in the INTEREST CREDITING section on the *data pages*.

Segment index rate means the interest rate calculated on a *segment maturity date*. The segment index rate calculation is described in the **Index Account Crediting Method Interest Rate Calculation** provision on the *data pages*.

Segment maturity date means the last day of the *segment term* when the *index credit* is credited to a *segment* based on the *index interest crediting strategy* selected for that *segment*.

Segment maturity value means the value of a *segment* after applying an *index credit*.

Segment start date means the date a *segment* is created and the *segment term* begins.

Segment term means the duration of each *segment*. The segment term is shown in the INTEREST CREDITING section on the *data pages*.

Short term holding account means the account within this policy that holds *net premiums* until the *allocation date*. The short term holding account receives interest credited at rates declared by us. The interest rate for the short term holding account will never be less than the *guaranteed minimum annual interest rate* shown in the INTEREST CREDITING section on the *data pages*.

Short-term no-lapse protection means the no-lapse protection during the *short-term no lapse protection period.*

Short-term no-lapse protection monthly premium means the amount shown as the Short-Term No-Lapse Protection Monthly Premium on the *data pages.*

Short-term no-lapse protection period means the time period specified as the Short-Term No-Lapse Protection Period on the *data pages.*

Short-term no-lapse protection value means, as of any date, the value shown under the column Short-Term No-Lapse Protection Value in the *no-lapse table* on the *data pages.*

Specified amount means the amount of life insurance you selected. The initial specified amount is shown in the POLICY DATA section on the *data pages*. If you change the specified amount in accordance with the terms of this policy, then it means the specified amount as so changed.

Surrender charge means, as of any date, an amount that may reduce the *accumulation value* if you surrender this policy, make a *partial withdrawal* or decrease the *specified amount*, as described in the Surrender Charge provision of this policy.

Surrender rate means the dollar amount per $1,000 of *specified amount* that is used to calculate *surrender charges*. Guaranteed maximum surrender rates for each *policy year* are shown in the POLICY CHARGES section on the *data pages*.

Surrender value means, as of any date, the amount you will receive if you surrender this policy before the maturity date.

DEATH BENEFIT

If the insured dies while this policy is in force, we will pay the *death benefit*, in one lump sum, subject to the terms of this policy.

The *death benefit* will be the greater of:

(a) the amount payable under the *death benefit* option in effect on the date of the insured's death; or
(b) the *minimum death benefit* on the date of the insured's death.

We will adjust the *death benefit* by:

(a) adding any *death benefit* provided by riders;
(b) subtracting any *loan*; and
(c) subtracting any due but unpaid *monthly deductions*.

DEATH BENEFIT OPTIONS

The initial *death benefit* option you selected is shown in the POLICY DATA section on the *data pages*.

The two *death benefit* options available under this policy are:

(a) Option 1 – Level – the *specified amount* in effect on the insured's date of death.
(b) Option 2 – Increasing – the *specified amount* in effect on the insured's date of death plus the *accumulation value* on that date.

CHANGE IN DEATH BENEFIT OPTION

Beginning on the first policy anniversary, you may submit a *formal request* to change the *death benefit* option once each *policy year*. However, you may not change from Option 1 to Option 2 after the insured reaches *attained age* 90.

A change in the *death benefit* option will not result in any change in the amount of the *death benefit*. We will adjust the *specified amount* so that:

(a) if you are changing from Option 1 to Option 2, the *specified amount* will decrease by the *accumulation value* on the effective date of the change.
(b) if you are changing from Option 2 to Option 1, the *specified amount* will increase by the *accumulation value* on the effective date of the change.

A change in *death benefit* option will be effective on the first *monthly deduction date* following the date we approve the change. We will send you a policy amendment showing the new *death benefit* option and the *specified amount* after the change.

You may not change the *death benefit* option from Option 1 to Option 2 if it would result in the *specified amount* being decreased to less than $50,000.

A change in the *death benefit* option may result in the loss of *no-lapse protection*.

INTEREST ON THE DEATH BENEFIT

We will pay interest on the *death benefit* from the insured's date of death to the date of payment. The interest rate will be the rate in effect for funds left on deposit with us on the date of the insured's death.

We will pay additional interest on the *death benefit* at the rate of 10% annually if we do not pay the *death benefit* within 31 days from the latest of the date we receive:

(a) due proof of the insured's death;
(b) sufficient information to determine the extent of our liability under this policy, and the *beneficiary*; or
(c) evidence that any legal impediments to payment of the *death benefit* that were dependent upon parties other than us have been removed.

CHANGE IN SPECIFIED AMOUNT

Beginning on the first policy anniversary, you may submit a *formal request* to change the *specified amount* once each *policy year*.

You may increase the *specified amount* by submitting an application and providing evidence of insurability acceptable to us. Any increase must be at least $1,000. You may not increase the *specified amount* after the insured reaches *attained age* 90.

You may decrease the *specified amount* by sending us a *formal request*. During the first three *policy years*, you may not decrease the *specified amount* to be less than 50% of the initial *specified amount* shown in the POLICY DATA section on the *data pages*. The *specified amount* may never be decreased below $50,000.

A decrease in *specified amount* will be subject to a *surrender charge* during *policy years* when *surrender charges* apply. The *surrender charge* will be equal to the applicable *surrender rate*, multiplied by the amount of the decrease in *specified amount*, divided by 1,000. The *surrender charge* will be applied on a *pro-rata* basis to the *short term holding account*, *fixed account* and *index account*.

A change in *specified amount* will be effective on the first *monthly deduction date* following the date we approve the change. We will send you a policy amendment showing the *specified amount* after the change.

A change in *specified amount* may result in the loss of *no-lapse protection*.

TAX MATTERS

This policy has been designed to qualify as life insurance under Section 7702 of the *code*. Among other things, the *code* provides a *minimum death benefit*. The *minimum death benefit* at any time equals the *accumulation value* multiplied by the *death benefit* percentage as shown in the Table of Death Benefit Percentages shown in the MINIMUM DEATH BENEFIT section on the *data pages*.

While you can make certain changes to this policy, we may not accept a change if it could adversely affect the status of this policy as life insurance under the *code*. Some changes that may have tax consequences include, but are not limited to:

(a) increasing the amount of *premiums* you pay in excess of the planned *premium*;
(b) changing the *specified amount*;
(c) changing the *death benefit* option; and
(d) making *partial withdrawals*.

We also have the right to change this policy, to require additional *premium*, or to make distributions from this policy to the extent necessary to continue to qualify it as life insurance. If a *premium* would increase the *death benefit* or cause this policy to fail to qualify as life insurance under the *code*, we reserve the right to refund the excess payment to you unless it is necessary to continue coverage. We also reserve the right to take necessary action to prevent this policy from becoming a modified endowment contract under Section 7702A of the *code*, unless you have indicated to us in writing that you want a modified endowment contract.

PREMIUM PAYMENTS

Planned *premiums* are payable at our *home office*. At your request, we will send you a receipt signed by an *executive officer*.

You may pay planned *premiums* annually, semiannually, quarterly, or at other intervals we may offer. The planned *premium* and *premium* payment mode you selected are shown in the POLICY DATA section on the *data pages*. After the first policy anniversary, you may change your planned *premium* or *premium* payment mode by contacting us. We will send you *premium* reminder notices for planned *premiums*.

You may also make additional *premium* payments at any time. If you paid any additional *premium* with the initial planned *premium*, that amount is shown in the POLICY DATA section on the *data pages*.

KEEPING THIS POLICY IN FORCE

CONTINUATION OF INSURANCE

This policy will continue until the maturity date as long as the *surrender value* is large enough to pay the *monthly deduction* on each *monthly deduction date*.

This policy will also continue until the maturity date as long as the *no-lapse protection* is in effect, even if the *surrender value* is not enough to pay the *monthly deductions*.

If the *surrender value* is less than the *monthly deduction* on any *monthly deduction date* and the *no-lapse protection* is not in effect, this policy will enter the *grace period*.

NO-LAPSE PROTECTION

Calculation of the No-Lapse Protection

On the issue date, this policy will have *no-lapse protection* as shown in the NO-LAPSE PROTECTION section on the *data pages*. This policy will have *short-term no-lapse protection* and may, as indicated on the *data pages,* have *long-term no-lapse protection*. On each *monthly deduction date* while *no-lapse protection* continues, we will calculate the *actual no-lapse value*.

The *actual no-lapse value* is an amount equal to:

(a) the total amount of *premiums* you paid on or prior to such *monthly deduction date*, accumulated with 2% annual interest from the date of each *premium* payment;
(b) minus the total *partial withdrawals* you made on or prior to such *monthly deduction date*, accumulated with 2% annual interest from the date of each *partial withdrawal*;
(c) minus the amount of any *loan*.

To determine whether *no-lapse protection* continues, we will then compare the *actual no-lapse value* to the *short-term no-lapse protection value* and, if *long-term no-lapse protection* is offered under this policy, the *long-term no-lapse protection value* shown in the NO-LAPSE PROTECTION section on the *data pages*.

Short-Term No-Lapse Protection

During the *short-term no-lapse protection period*, if the *actual no-lapse* value is equal to or greater than the *short-term no-lapse protection value*, then *short-term no-lapse protection* is in effect and this policy will remain in force without entering the *grace period*. If the *actual no-lapse value* is less than the *short-term no-lapse protection value*, then *short-term no-lapse protection* is not in effect. If *short-term no-lapse protection* is not in effect, this policy will enter the *grace period*, unless the *surrender value* equals or exceeds the *monthly deduction* for that *monthly deduction date*.

The *short-term no-lapse protection values* are based on *short-term no-lapse protection monthly premium* payments. If you make monthly *premium* payments in an amount equal to the *short-term no-lapse protection monthly premium* throughout the *short-term no-lapse protection period*, *short-term no-lapse protection* will be in effect until the end of the *short-term no-lapse protection period*. This assumes that no change event has occurred and that you make no *partial withdrawals* or any *loan*. The *short-term no-lapse protection* is not in effect after the end of the *short-term no-lapse protection period*.

If *short-term no-lapse protection* is not in effect as of any *monthly deduction date*, you will be allowed at any time during the *short-term no-lapse protection period* to restore the *short-term no-lapse protection*. The *short-term no-lapse protection* can be restored by paying us the amount by which the *short-term no-lapse protection value* exceeds the *actual no-lapse value*. The *short-term no-lapse protection* will be restored as of the *monthly deduction date* occurring on or next after the date of payment. If this policy lapses during the *short-term no-lapse protection period*, you may restore the *short-term no-lapse protection* only by complying with the requirements for reinstatement of this policy.

Long-Term No-Lapse Protection

During the *long-term no-lapse protection period*, if the *actual no-lapse value* is equal to or greater than the *long-term no-lapse protection value*, then *long-term no-lapse protection* is in effect and this policy will remain in force without entering the *grace period*. If the *actual no-lapse value* is less than the *long-term no-lapse protection value*, then *long-term no-lapse protection* is not in effect. If *long-term no-lapse protection* is not in effect, this policy will enter the *grace period*, unless *short-term no-lapse protection* is in effect or the *surrender value* equals or exceeds the *monthly deduction* for that *monthly deduction date*.

The *long-term no-lapse protection values* are based on *long-term no-lapse protection monthly premium payments*. If you make monthly *premium* payments in an amount equal to the *long-term no-lapse protection monthly premium* throughout the *long-term no-lapse protection period*, *long-term no-lapse protection* will be in effect until the end of the *long-term no-lapse protection period*. This assumes that no *change event* has occurred and that you make no *partial withdrawals* or any *loan*. The *long-term no-lapse protection* is not in effect after the end of the *long-term no-lapse protection period*.

If the *long-term no-lapse protection* is not in effect as of any *monthly deduction date* during the *short-term no-lapse protection period*, you will be allowed to restore the *long-term no-lapse protection*. The *long-term no-lapse protection* can be restored by paying us the amount by which the *long-term no-lapse protection value* exceeds the *actual no-lapse value*. After the *short-term no-lapse protection period*, the required payment must be made within 90 days following the *monthly deduction date* in which the *long-term no-lapse protection* is not in effect, or, if on such *monthly deduction date* this policy enters the *grace period*, within the *grace period*. The *long-term no-lapse protection* will be restored as of the *monthly deduction date* occurring on or next following the date of payment. If you do not make the required payment within such time period, the *long-term no-lapse protection* ends and cannot be restored. If the policy lapses, the *long-term no-lapse protection* cannot be restored even if the policy is reinstated.

Monthly Deductions

If the policy is not entering the *grace period* because *no-lapse protection* is in effect, then each *monthly deduction* will continue to be charged.

Negative Accumulation Value

If *no-lapse protection* is in effect, the *accumulation value* may have a negative balance. If the *accumulation value* has a negative balance, the following will occur:

(a) we will not credit or charge interest on this negative balance;
(b) *monthly deductions* will continue to be taken from the *accumulation value*;
(c) *allocations* will no longer occur; and
(d) all *segment terms* will end. Any *segment* ending prior to its *segment maturity date* will not receive an index credit.

Any *premium* received will be applied to the negative *accumulation value* until such time the *accumulation value* is zero. *Allocations* will resume when the *accumulation value* is no longer negative.

Effects of a Change Event

If a *change event* occurs, the values reflected in the *no-lapse table* will change. In that event, we will send you a revised *no-lapse table*.

A *change event* could also result in a loss of *no-lapse protection*. We will notify you if a *change event* has resulted in the loss of *no-lapse protection*.

GRACE PERIOD

This policy has a 61-day *grace period*. This policy will remain in force during the *grace period*.

If the *no-lapse protection* is not in effect, the *grace period* will begin on any *monthly deduction date* on which the *surrender value* is not enough to pay the *monthly deduction*. If the *no-lapse protection* is in effect, this policy will not enter the *grace period*, unless there is not enough *surrender value* to pay any applicable *loan* interest when due. Please see the LOANS section of the policy for more information.

Within 30 days after the start of the *grace period*, we will mail a notice to your last known address, indicating the amount you must pay to keep this policy in force. We will also send this notice to any collateral assignee of record at the assignee's last known address.

To keep this policy in force, by the end of the *grace period* you must pay the lesser of:

(a) the amount necessary to restore *no-lapse protection*, if applicable; or
(b) the amount necessary to pay all unpaid *monthly deductions* and any unpaid *loan* interest.

If you have not paid the amount required by the end of the *grace period*, this policy will *lapse* as of the first day of the *grace period*. If this policy *lapses* during a *segment term* prior to its *segment maturity date*, the *segment* will terminate and not receive an *index credit*.

REINSTATEMENT

You have three years from the date of *lapse* to apply to reinstate this policy. Prior to the end of the *short-term no-lapse protection period*, you may also restore the *short-term no-lapse protection* when you reinstate this policy. *Long-term no-lapse protection cannot be restored unless you* make the required payment within the required time period. Please see the **Long-Term No-Lapse Protection** provision for more information. Any *segment term* terminated as of the date of *lapse* cannot be reinstated.

To reinstate this policy, you must:

(a) submit a *formal request* signed by you and the insured, if you are not the insured;
(b) provide evidence of insurability acceptable to us; and
(c) pay a *premium* equal to:
    (i) the lesser of;
        a. the amount necessary to restore the *short-term no-lapse protection*, subject to the short-term no-lapse protection period; or
        b. the amount that was required to keep this policy in force as of the end of the *grace period*;
    (ii) plus the amount required to keep this policy in force for three months from the date of reinstatement;
    (iii) plus the applicable *premium charge*.

Reinstatement will be effective on the date we approve the reinstatement and we will consider any *loan* outstanding on the date of *lapse* to be repaid. On the effective date of any reinstatement, the *accumulation value* will equal the total of:

(a) an amount equal to the *accumulation value*, if any, as of the date of *lapse*;
(b) minus any *loan* as of the date of *lapse*,
(c) plus the amount of your reinstatement *net premium* payment.

On the date of reinstatement, the *accumulation value* will be recorded to the *short term holding account* and *allocations* will occur on the next *allocation date* based on the *allocation percentages* and *index interest crediting strategies* that were effective as of the date of *lapse*. This policy will retain its original issue date and *policy years* will continue to be calculated from that issue date.

If this policy *lapses* because there is not sufficient *surrender value* to pay any interest due on a *loan*, you may not reinstate this policy.

POLICY CHARGES

MONTHLY DEDUCTIONS

On each *monthly deduction date*, *monthly deductions* will be applied on a *pro-rata* basis to the *short term holding account, fixed account* and *index account*, reducing the *accumulation value*.

The *monthly deduction* equals:
- (a) the *monthly expense charge*;
- (b) plus the cost of insurance charge;
- (c) plus any applicable monthly rider costs.

COST OF INSURANCE CHARGE

The cost of insurance charge is part of the *monthly deduction*.

The cost of insurance charge equals:
- (a) the net amount at risk for the current month;
- (b) multiplied by the current cost of insurance rate per $1,000 of net amount at risk;
- (c) divided by 1,000.

In calculating the net amount at risk, the *accumulation value* will never be less than zero.

The net amount at risk for Death Benefit Option 1 equals:
- (a) the greater of:
  - (i) the *specified amount* divided by the divisor for calculating the net amount at risk shown in the POLICY CHARGES section on the *data pages*; or
  - (ii) the *minimum death benefit*;
- (b) minus the *accumulation value* on the *monthly deduction date* after subtracting the *monthly expense charge* and the cost of any riders for the current month.

The net amount at risk for Death Benefit Option 2 equals the greater of:
- (a) the *specified amount* divided by the divisor for calculating the net amount at risk shown in the POLICY CHARGES section on the *data pages*; or
- (b) the *minimum death benefit*.

SURRENDER CHARGE

The *surrender rates* and the *policy years* when *surrender charges* apply are shown in the POLICY CHARGES section on the *data pages*.

A *surrender charge* is an amount equal to:
- (a) the *surrender rate*;
- (b) multiplied by the *specified amount*;
- (c) divided by 1,000.

During the applicable *policy years*, a *surrender charge* may apply if you:
- (a) cancel this policy after the period specified in the **Right to Return This Policy** provision as described on the first page of this policy;
- (b) request a *specified amount* decrease; or
- (c) make a *partial withdrawal*. Please see the PARTIAL WITHDRAWALS section for more information.

Surrender rates will not exceed the rates shown in the Table of Guaranteed Maximum Surrender Rates shown in the POLICY CHARGES section on the *data pages*. A reduction in the *specified amount* will not change the *surrender rate* on the policy but will result in a reduced *surrender charge.*

CHANGES IN RATES AND CHARGES

The *monthly expense charge*, cost of insurance rates, monthly rider costs, *surrender rates*, and *premium charge* may vary over time. We will declare these rates and charges based on our expectations of future investment earnings, persistency, mortality and expense experience, taxes, and any other factors we may determine to take into account in the future. However, they will never exceed the guaranteed maximum amounts shown in the POLICY CHARGES section on the *data pages*. These rates and charges will apply uniformly to all members of the same *policy class*.

ACCOUNTS

We will establish a *short term holding account*, a *fixed account* and an *index account* within this policy. All premiums paid by you during the term of this policy will initially be recorded by us to the *short term holding account*. On each *allocation date,* we will allocate the funds recorded to the *short term holding account* to either or both the *fixed account* or *index account* in the *allocation percentages.*

CREDITED INTEREST FOR SHORT TERM HOLDING ACCOUNT AND FIXED ACCOUNT

We will credit interest on a daily basis to the *short term holding account* and the *fixed account*. The interest rate credited to the unloaned portion of these accounts will be declared by us on a monthly basis, but will never be less than the *guaranteed minimum annual interest rate*. The interest rate we credit to the loaned portion of these accounts will be the *guaranteed minimum annual interest rate*. If the value of either account is less than zero, we will not credit interest to such account.

CREDITED INTEREST FOR INDEX ACCOUNT

Each time funds are allocated to the *index account*, we will establish a separate *segment* for each *index interest crediting strategy* within the *index account*. We will credit interest to each *segment* within the *index account* based on the *index interest crediting strategy* you selected for such *segment*. Interest will be credited on the *segment maturity date* for each *segment*. The *index credit* recorded on each *segment maturity date* will equal the *segment index rate* multiplied by the *segment* value on the day prior to the *segment maturity date*. The *segment index rate* will be the same for both the loaned and unloaned portions of a *segment*. Unless you provide us with a *formal request* directing us otherwise, on each *segment maturity date*, the *segment maturity value* will be credited to a new *segment* within the same *index interest crediting strategy*.

We will not record an *index credit* to any *segment* if any of the following actions occur prior to its *segment maturity date*:

(a) the insured dies while this policy is in force;
(b) you surrender this policy;
(c) the policy *lapses*;
(d) all of a *segment's* value is transferred to the *fixed account* for any *loan* request;
(e) all of a *segment's* value is withdrawn; or
(f) a *segment's* value is reduced to zero due to monthly deductions.

CHANGES IN RATES

The interest rate we credit to the *short term holding account* and the *fixed account*, as well as the *participation rates*, *segment caps* and *segment floors* declared by us, are based on our expectations of future investment earnings, persistency, mortality and expense experience, taxes, and any other factors which we may determine to take into account in the future. In no event will the interest rate credited to the *short term holding account* and *fixed account* be less than the *guaranteed minimum annual interest rate*. Also, in no event will the *participation rate*, *segment cap* and *floor rate* be less than the guaranteed percentages shown on the *data pages*.

ACCUMULATION VALUE

The *accumulation value* is, as of any date, the sum of the values in the *short term holding account,* the *fixed account* and the *index account*.

SHORT TERM HOLDING ACCOUNT

Each *net premium* will be recorded to the *short term holding account*. On the *allocation date*, funds from the *short term holding account* will be *allocated* to the *fixed account* and/or *index account*. On the issue date, the value of the *short term holding account* equals the initial *net premium*, minus the *monthly deduction* for the issue date.

On any subsequent day, the value of the *short term holding account* equals:

(a) the *short term holding account* value as of the end of the prior day;
(b) plus interest credited to the *short term holding account* since the prior day;

(c) plus any *net premiums* credited to the *short term holding account* since the prior day;
(d) minus, on a day which is a *monthly deduction date*, a *pro-rata* portion of the *monthly deduction*;
(e) minus a *pro-rata* portion of any *partial withdrawal* since the prior day;
(f) minus a *pro-rata* portion of any *surrender charge* due to a decrease in *specified amount* since the prior day;
(g) minus, on a day which is the *allocation date*, *allocations* from the *short term holding account* to the *fixed account* and/or *index account*.

FIXED ACCOUNT

On the first *allocation date*, the *fixed account* equals:
(1) the initial *allocation*;
(2) minus, on a day which is a *monthly deduction date*, a *pro-rata* portion of the *monthly deduction*.

On any subsequent day, the *fixed account* equals:
(a) the *fixed account* value as of the end of the prior day;
(b) plus interest credited to the *fixed account* since the prior day;
(c) plus any *allocations* credited to the *fixed account* since the prior day;
(d) plus any transfers credited to the *fixed account*;
(e) minus, on a day which is a *monthly deduction date*, a *pro-rata* portion of the *monthly deduction*;
(f) minus a *pro-rata* portion of any *partial withdrawal* since the prior day;
(g) minus a *pro-rata* portion of any *surrender charge* due to a decrease in *specified amount* since the prior day;
(h) minus any transfers from the *fixed account*.

INDEX ACCOUNT

The value of the *index account* is, as of any date, the sum of the values of each *segment*.

On the *allocation date*, a *segment* is created when:
(a) *allocations* are made from the *short term holding account*;
(b) transfers are made from the *fixed account*; or
(c) transfers are made from a *segment maturity value*.

On a *segment start date*, the value of a *segment* equals the initial *allocation* or transfer amount described in (a) through (c) above.

On any subsequent day, the value of the *segment* equals:
(a) the *segment* value as of the end of the prior day;
(b) plus *index credits* applied on a *segment maturity date* since the prior day;
(c) minus, on a day which is a *monthly deduction date*, a *pro-rata* portion of the *monthly deduction*;
(d) minus a *pro-rata* portion of any *partial withdrawal* since the prior day;
(e) minus a *pro-rata* portion of any *surrender charge* due to a decrease in *specified amount* since the prior day;
(f) minus any transfers from the *index account* for a standard loan;
(g) minus any transfer from the *index account* on the *segment maturity date* to a new *segment* or to the *fixed account*.

During a *segment term*, *allocations* or transfers will not be placed in an existing *segment*.

ALLOCATION CHANGES AND TRANSFERS

While this policy is in force, you may submit a *formal request* to:
(a) change the *allocation percentages* for future *premiums*;
(b) change the *index interest crediting strategies* for future *premiums*; and
(c) transfer funds from the *fixed account* to the *index account*.

The *formal requests* for the changes and transfers listed above must be received by the Allocation Changes and Transfer Cut-Off Date shown in the ACCOUNT ALLOCATION section on the *data pages*. Unless you specify otherwise in the *formal request*, changes and transfers will be processed on the next *allocation date*.

While this policy is in force, you may also submit a *formal request* to change the *index interest crediting strategies* for a *segment* and/or transfer funds from the *index account* to the *fixed account*, subject to the following:
(a) the *formal request* must be submitted by *close of business* at least two *business days* prior to a *segment maturity date*; and
(b) the *formal request* will be processed and take effect on the next *segment maturity date*.

DISCONTINUATION OF OR SUBSTANTIAL CHANGE TO AN INDEX

If an *index* is discontinued or becomes unavailable to us, the methodology pertaining to the calculation of the *index* is changed substantially, or we determine that an *index* will no longer be used, we reserve the right, subject to the approval of the Interstate Insurance Product Regulation Commission, to substitute a comparable *index*. Before we use a substitute *index*, we will notify you of the substitution.

SURRENDER

While the insured is living, you may surrender this policy for its *surrender value* by submitting a *formal request* and returning this policy to us. This policy will terminate on the date we record your *formal request*.

The *surrender value*, as of any date, equals:

(a) the *accumulation value*;
(b) minus any applicable *surrender charge*;
(c) minus any *loan*.

We may defer payment of the *surrender value* for up to six months.

PARTIAL WITHDRAWALS

Beginning on the first policy anniversary while the insured is living, you may withdraw part of the *surrender value* of this policy by submitting a *formal request*.

Partial withdrawals will be subject to the following conditions:

(a) Each *partial withdrawal* must be at least $100.
(b) Each *partial withdrawal* may not exceed:
    (i) 90% of the *surrender value* at the time you make the *partial withdrawal* during *policy years* in which a *surrender charge* applies, and 100% of the *surrender value* at the time you make the *partial withdrawal* thereafter;
    (ii) minus the sum of the next three *monthly deductions*.
(c) You may not make a *partial withdrawal* if it would decrease the *specified amount* below $50,000.
(d) During *policy years* in which a *surrender charge* applies, you may make a *partial withdrawal* only once each *policy year*. Thereafter, the number of *partial withdrawals* is unlimited.

If *death benefit* option 1 is in effect, the following will apply for each *partial withdrawal*:

(a) The *specified amount* will decrease by the amount of the *partial withdrawal*; and
(b) The *accumulation value*, applied on a *pro-rata* basis to the *short term holding account*, the *fixed account* and *index account*, will decrease by:
    (i) the amount of the *partial withdrawal*;
    (ii) plus the *surrender charge* that applies to the decrease in *specified amount*;
    (iii) plus the withdrawal fee shown in the POLICY CHARGES section on the *data pages*.

If *death benefit* option 2 is in effect, the *accumulation value* will decrease by the amount of each *partial withdrawal* and the withdrawal fee shown in the POLICY CHARGES section on the *data pages*. The decrease will be applied on a *pro-rata* basis to the *short term holding account*, the *fixed account* and *index account*.

If a *partial withdrawal* results in a decrease in *specified amount*, we will send you an amendment to this policy showing the *specified amount* after the *partial withdrawal*. We may defer payment of *partial withdrawals* for up to six months. A *partial withdrawal* may result in the loss of *no-lapse protection*.

LOANS

You may take *loans* secured by this policy's *surrender value* by submitting a *formal request*. You must assign the policy to us as sole security for the *loan*.

LOAN OPTIONS

You may choose an index *loan* or a standard *loan* at the time you request a *loan*. If this policy has an existing *loan* at the time of your request, the new *loan* must be the same type of *loan* option as the existing *loan*. If you do not specify a *loan* option and do not currently have a *loan*, the request will be processed as a standard *loan*.

The minimum *loan* allowed is $100. The maximum *loan* allowed equals:

(a) the *surrender value*;

(b) minus the interest that will accrue on the *loan* to the end of the *policy year* in which the *loan* is made;
(c) minus the *monthly deduction* for the *monthly deduction date* occurring on or next after the date of the *loan*.

Index Loan

You may request an index *loan* from the *index account* value.

If you request an index *loan*, we will charge interest at a rate we declare. We may change the interest rate once a year. Any change in *loan* interest rates will be effective on the next policy anniversary for any new and existing *loan*. The *loan* interest rates may vary over time, but will never be greater than the Index Loan Guaranteed Maximum Interest Rate shown on the *data pages*. Interest is payable in arrears.

For an index *loan*, the interest credited to the loaned portion of the *accumulation value* will be at the same rate as the unloaned portion. If the index *loan* balance is greater than the *index account* value, the loan will be applied to funds in the *fixed account*. Loaned balances from the *fixed account* for an index *loan* will earn interest at the same rate as the unloaned portion of the *fixed account*.

Standard Loan

You may request a standard *loan* from the value then recorded to the *short term holding account* and *fixed account*. If you request a loan in excess of the amounts then recorded to such accounts, we will immediately transfer the excess amount from the *index account* to the *fixed account*. Any transfer of funds from the *index account* to the *fixed account* will be made on a *pro-rata* basis from all *segments*.

We will charge interest on a standard *loan* based on the policy year and the annual rate(s) shown in the LOAN INTEREST RATE section on the data pages.

We credit interest on a daily basis to the loaned portions of the *short term holding account* and *fixed account* at the *guaranteed minimum annual interest rate*.

POLICY LOAN AND REPAYMENT

Loan interest is due on each policy anniversary. If you do not pay the interest when due, that interest will be added to the principal amount of the *loan* and will be charged interest at the same interest rate as the *loan*. If there is not enough *surrender value* available to pay the *loan* interest when due and you do not make a *loan* interest payment, this policy will terminate, subject to the **Grace Period** provision.

You may repay all or part of a *loan* at any time while this policy is in force. You must identify any payment intended as a *loan* repayment, or it will be considered a *premium* payment. We will subtract any *loan* not repaid on the date of the insured's death from the *death benefit*.

We may defer making a *loan* for up to six months unless the *loan* is to pay *premiums* to us. A *loan* may result in the loss of *no-lapse protection*.

If this policy *lapses* while a *loan* is outstanding, you may experience adverse tax consequences. You should consult your personal tax advisor before a *lapse* occurs.

SUICIDE EXCLUSION

We will not pay the *death benefit* if the insured commits suicide, while sane or insane, within two years from the *contestability date*. Instead, we will return all *premiums* paid, minus the sum of any *loan* and any *partial withdrawals*.

We will not pay that part of the *death benefit* resulting from an increase in the *specified amount* if the insured commits suicide, while sane or insane, within two years from the effective date of the increase. Instead, we will return the cost of insurance charges associated with the increase.

If this policy is reinstated, we will not pay the *death benefit* if the insured commits suicide, while sane or insane, within two years from the date of reinstatement. Instead, we will return all *premiums* paid from the date of reinstatement, minus the sum of any *loan* and any *partial withdrawals*.

OWNER AND BENEFICIARY

OWNER

While the insured is alive, only you, the owner, may exercise the rights under this policy. You can change the owner of this policy during the insured's lifetime by submitting a *formal request*.

Unless you specify otherwise in the *formal request*, the ownership change will be effective on the date you sign the *formal request*. If the *beneficiary* designation in effect is irrevocable, the *beneficiary* must also sign the *formal request*. We are not liable for any actions we take before we receive the *formal request*.

ASSIGNMENT

You can assign some or all of your policy rights during the insured's lifetime by submitting a *formal request*.

Unless you specify otherwise in the *formal request*, the assignment will be effective on the date you sign the *formal request*. If the *beneficiary* designation in effect is irrevocable, the *beneficiary* must also sign the *formal request*. We are not liable for any actions we take before we receive the *formal request*.

We are not responsible for the validity of any assignment of this policy.

BENEFICIARY

The *death benefit* will be paid to the *beneficiary*. If you named more than one *beneficiary*, they will share the *death benefit* equally or as you may otherwise specify in the application or by *formal request*. If there is no named *beneficiary* living when the insured dies, the *death benefit* will be paid to:

(a) the insured's spouse; if no living spouse, then
(b) equally to all living children of the insured; if none, then
(c) equally to the insured's parents; if none, then
(d) equally to the insured's siblings; if none, then
(e) the insured's estate.

You can change the *beneficiary* during the insured's lifetime by submitting a *formal request*. Unless you specify otherwise in the *formal request*, the change will be effective on the date you sign the *formal request*. If the *beneficiary* designation in effect is irrevocable, the *beneficiary* must also sign the *formal request*. We are not liable for any actions we take before we receive the *formal request*.

GENERAL PROVISIONS

ENTIRE CONTRACT

This policy is a contract between you and us. The entire contract is:
(a) this policy;
(b) the attached application;
(c) any supplemental applications made part of this policy;
(d) any riders; and
(e) any endorsements or amendments.

All statements made in an application will, in the absence of fraud, be considered representations and not warranties.

Any change to this policy requires an *executive officer's* written consent. No other representative has the authority to change this policy or waive any of its terms.

INCONTESTABILITY

Except for nonpayment of *premium* or fraud in the procurement of the policy when permitted by applicable state law, this policy will be incontestable after it has been in force during the insured's lifetime for two years from the *contestability date*. If this policy is reinstated, a new contestable period of two years will start on the date of reinstatement. If you request an increase in *specified amount*, a new contestable period of two years for the amount of the increase will start on the effective date of the increase.

Any contest will be based on the related application and will be material to the risk we assumed.

CONVERSION FROM OTHER LIFE INSURANCE COVERAGE

If this policy is issued as a conversion from other life insurance coverage, the two year suicide exclusion and contestable periods for the converted amount will be measured from the issue date, *contestability date*, or effective date, whichever applies, of the policy or certificate that was converted.

If this policy includes additional coverage for which evidence of insurability was required, the two year suicide exclusion and contestable periods for the additional amount of coverage will be measured from the *contestability date* of this policy.

MISSTATEMENT OF AGE OR SEX

If the age or sex of the insured has been misstated, we will adjust the *specified amount* and the *death benefit* to that which would have been purchased by the most recent cost of insurance charge at the correct age and sex.

ANNUAL STATEMENT

Once a year, we will send you a statement of your policy benefits and values, free of charge. The statement will include:

(a) the beginning and ending dates for the statement period;
(b) the *accumulation value* at the end of the previous statement period;
(c) the *accumulation value* at the end of the current statement period;
(d) all amounts credited or debited to this policy during the statement period;
(e) the *death benefit* at the end of the statement period;
(f) the *surrender value* at the end of the statement period;
(g) the amount of any *loan* as of the end of the statement period;
(h) if applicable, a notice that the *surrender value* computed using the *guaranteed minimum annual interest rate*, guaranteed maximum cost of insurance rate, guaranteed maximum *monthly expense charge*, and planned *premium* payments is not enough to keep this policy in force until the end of the next statement period, taking into account any *no-lapse protection* in effect; and
(i) any other information required by law in the state where this policy was delivered.

ILLUSTRATIVE REPORT

You may request an up-to-date illustrative report of your policy benefits and values at any time. The report will be based on past results and assumptions for the future. We will provide one free illustrative report each year. We reserve the right to charge a fee not more than $20 for additional reports.

MINIMUM REQUIRED VALUES

Any cash values and paid-up nonforfeiture benefits available under this policy will never be less than the minimum values required by the NAIC Universal Life Insurance Regulation, model #585. A detailed statement of the basis of the charges and the methods of computation has been filed with the Interstate Insurance Product Regulation Commission.

To calculate the minimum required values, we use the *guaranteed minimum annual interest rate* and the appropriate mortality table for the insured's issue age and risk class. If the insured's risk class is Nontobacco, we use the 2017 CSO Mortality Table, Age Last Birthday, Non-Smoker. However, if the insured's risk class is Tobacco, we use the 2017 CSO Mortality Table, Age Last Birthday, Smoker.

COMPLIANCE WITH LAW

We reserve the right to make changes to the provisions of this policy to comply with, or give you the benefit of, any federal or state statute, rule, or regulation.

CONFORMITY WITH STANDARDS

This policy was approved under the authority of the Interstate Insurance Product Regulation Commission and issued under its standards. Any provision of this policy that on the issue date is in conflict with the applicable Interstate Insurance Product Regulation Commission standards for this product type in effect as of the issue date of this policy is amended as of the issue date to conform to the applicable Interstate Insurance Product Regulation Commission standards in effect as of the issue date of this policy.

THIS PAGE INTENTIONALLY LEFT BLANK

THIS IS A FLEXIBLE PREMIUM ADJUSTABLE LIFE INSURANCE POLICY WITH INDEX-LINKED INTEREST CREDITING OPTIONS BASED ON FINANCIAL MARKET INDICES. THE BENEFITS, VALUES, PERIODS OF COVERAGE, AND PREMIUMS NEEDED TO KEEP THIS POLICY IN FORCE MAY VARY OVER TIME.

IF YOU ALLOCATE PREMIUMS TO THE INDEX ACCOUNT, THE POLICY VALUES WILL BE AFFECTED BY THE CHANGE IN THE FINANCIAL MARKET INDICES. THIS POLICY DOES NOT DIRECTLY PARTICIPATE IN ANY EQUITY, BOND, MUTUAL FUND, COMMODITIES OR OTHER SECURITIES INVESTMENTS.

THIS IS NOT A PARTICIPATING POLICY. NO DIVIDENDS WILL BE PAID.
